

*Remembering Love*  
in a  
**HEARTBEAT**

"Remembering Love in a Heartbeat" supports parents who are faced with a terminal pregnancy diagnosis. The program offers families the opportunity to have their baby's heartbeat recorded on a small device that is then placed into a stuffed Bunny or Bear. This is an opportunity for the family to always hear their precious baby's heartbeat... a beautiful memento from your baby's life.

 The Western New York Perinatal Bereavement Network, Inc. proudly presents the "Remembering Love in a Heartbeat" Program. It is supported in collaboration with Bruce and Jennifer Pritchett, bereaved Parents of Helen Lois Pritchett. The Bear and Bunny Pouches are handmade with love by Beverly Ingalsbe, bereaved Grandmother of Alyssa Sophia Ingalsbe.
